Mike, the attachments didn't come through. You may need to break them up or put them in a drop box location.

Subject: dioxin data for Des Moines TCE/Dico

Erin:

Attached you will find the dioxin data from Pace. The first data deliverable is a little confusing because it is actually concrete--even though the locations are labeled SB. If you look at the chain of custody, you will see. We will give those locations another designation for the report so it's not confusing.

I'll check on the EDDs or something in spreadsheet format so we can put together summary

tables for the report.

Thanks,

Mike
